- ensuring that the information is updated if it changes;

- collaborating with the school in working out arrangement for the supply and administration of the prescribed medication for the duration of the event.

For some events, the school will ask parents to supply the medication in a different way to what has already been agreed by the school. For example, parents may be asked to supply an additional adrenaline autoinjector (i.e. *EpiPen*® / *Anapen*®).

For asthma and anaphylaxis, it is important for students to have immediate access to their medication.
